

(Non-Surgical Face Lifting)

**BEFORE**

**AFTER**

*Wrinkles and crepey skin without spring is always troublesome to the race that cares about beauty! - unknown*

*Bio Skin Lifting provides the solution via a biological electrical simulation microwave. The electrical simulation can reach the cell tissue through the skin without any discomfort.*

*The microwave reach the interior of the cell, help with the damaged and scarred cell membrane recovering the balance, increasing the activity of the cell, improving the cell's metabolism and circulation and rehabilitate the cell tissue.*

*The uses of Bio Skin Lifting technology:*

*Face toning treatment:*

- Reduces wrinkles
- Replenishing moisture loss
- Tightens facial muscles
- Stimulate collagen production
- Improves lymphatic drainage
- Tightens relaxed pore
- Increase activating of skin cells
- Reduces neck-wrinkles
- Repairing sensitivity
- Improving skin-immunity
