

Cancer Skin Check

By Nurse in Dermatology

We all love the sun for its euphoric benefits. Fun in the sun will always be part of our lives! Unfortunately, not all stories have a happy ending. Cancer Skin Checks must be on the top of our tick lists. We can't ignore the facts. Our sun kills!

Call today for a Cancer Skin Check. You are at risk!!! (02) 61662265

Who will do the check?

- Qualified staff with an in-depth knowledge in skin cancer diagnosis, prevention treatment and cancer photography.

What is involved in the check?

- Qualified staff will inspect skin front and back including scalp, hands, feet, nails and eyes.
- Photographs will be taken of all suspicious growths.
- After check staff will do a report on all the skin growths and you will receive a copy three weeks after skin check.

How long is a skin check appointment?

- 60 min, including consultation, inspection and prevention care.

How often should I do a check?

- Every year, as it is vital for you to know if your check has remained the same.

What is prevention care?

- Treatments that can prevent growth of sun damaged skin cells
- Treatments that can remove unwanted skin growths

Who does these treatments?

- Qualified staff with qualifications in dermal and medical skin treatments.

Cancer Skin Check

What do I need to do when I go into the sun after treatments?

- Cover up with a good sun protection product!

Sunscreen, also known as sunblock, sun cream or suntan lotion, is a lotion, spray, gel or other topical product that absorbs or reflects some of the sun's ultraviolet radiation and thus helps protect against sunburn.

We can help you with information on why we trust Solartec!!
